

# A REWARDING CAREER ISN'T JUST A PIPE DREAM!

There isn't one set path to success at Century Fire Protection! With continuous learning, certifications, and professional development, employees at Century can unlock their full potential and achieve long-term career growth.

## INSPECTOR TRAINEE

0-1+ yrs  
EXPERIENCE

### WHAT DOES A TRAINEE DO?

As an Inspector Trainee (apprentice), you learn the basics of inspecting various fire protection systems. You'll gain hands-on experience in the field as well as study training materials to earn your certifications in areas like Fire Extinguishers, Kitchen Suppression, Pre-Engineered Systems, Fire Sprinklers, Alarms, Clean Agent Systems and Backflows.

### HOW CAN A TRAINEE ADVANCE TO AN INSPECTOR?

Trainees can advance to Inspector with field experience and by obtaining professional certifications such as NICET, ACE, ICC and NAFED, as well as state permits and licenses.

## INSPECTOR

1-5+ yrs  
EXPERIENCE

### WHAT DOES AN INSPECTOR DO?

An Inspector is responsible for conducting inspections, testing, and maintenance of fire systems to ensure they are properly installed and maintained. While specializing in a particular area, such as sprinklers, inspectors may also undergo cross-training in other disciplines, such as extinguishers, to expand their expertise and enhance their ability to serve customers.

### HOW CAN AN INSPECTOR ADVANCE TO A SENIOR INSPECTOR?

Inspectors can advance to Senior Inspector by demonstrating mastery in their field, continuously improving their skills, and completing jobs with efficiency and precision.

## SENIOR INSPECTOR

5-8+ yrs  
EXPERIENCE

### WHAT DOES A SENIOR INSPECTOR DO?

A Senior Inspector is experienced and fully certified to handle all types of inspections, testing and maintenance. You'll also mentor and train new apprentices while continuing to expand your skills by advancing through Levels 1, 2 and 3 of Century's performance criteria for Inspectors.

### HOW CAN A SENIOR INSPECTOR ADVANCE IN THEIR CAREER?

Senior Inspectors with a comprehensive skill set who demonstrate mastery of performing inspections for all types of systems within their discipline, as well as leadership ability, have many opportunities to advance in their careers. Check out the next step to learn more!

8+ yrs  
EXPERIENCE

### YOUR CAREER, YOUR CHOICE!
